What's even better about RINGBO is that it can also be a great teacher for your child! Why not present this incredible ride-on to your child. Make your child and you happy at the same time.

Riding Intelligent Robot RINGBO

Safe & Easy
Perfect for Children & Parents

Four Key Features

- Safest Ride-on (Sensor & Voice alert)
- Educational toy
- Easy Operation
- Indoor Ride-on

Sensors keep your child from bumping into something

If you were ever worried about your child on a ride-on, this is the ride-on you want. RINGBO has sensors in front and back that keep your child from bumping into something. When RINGBO gets close to an obstacle, it automatically stops and warns your child out loud to "Watch Out!"

An obstacle detected.
Be careful!

Pedal and joystick help your child play safe and easy

To operate RINGBO, the pedal and joystick have to be operated at the same time. For safety issue, RINGBO starts its movement when your kid is ready to move, stepping on the pedal and holding the joystick tightly. Different from typical handles, joystick is easy to operate. Children can easily learn to use RINGBO in a short period of time and enjoy it.

RINGBO is talking Ride-on Toy

RINGBO can be a friend of your child. RINGBO keeps on communicating with your child while operating. Stepping on the Pedal it says, "Here we go!" Pressing left and right button it says "Let's have fun" and "Excuse me~ You are in the way!" When power is on, it says "Are you ready?" When sensor is on "Sensor's on, I will be with you", When Sensor is off "Sensor's off, Please drive safely". So, watch your child ride and talk with RINGBO. "Let's play! I am Ringbo"

RINGBO is perfect for indoor use

It is a ride-on your child can enjoy inside the house. As it requires zero swing radius, RINGBO can easily make full turns and move around freely in small space. And RINGBO with its stable design, you don't need to worry about your child falling off RINGBO. So, let your child enjoy the ride on RINGBO and do your work without any worries.
